Test Case ID	Title	Category	Expected Result	Steps	Test Data
TC-001	View Existing Report	Positive	Report displays accurate and up-to-date information	Navigate to Reports module Select existing report View report details	N/A
TC-002	Generate New Report	Positive	Report is generated successfully with accurate and up-to-date informa	Navigate to Reports module Click on Generate Report button Select report type and parameters	N/A
TC-003	View Report with No Data	Edge	Report displays 'No data available' or similar message	Navigate to Reports module Select report with no data View report details	N/A
TC-004	Generate Report with Invalid P	Negative	System displays error message or prevents report generation	Navigate to Reports module Click on Generate Report button Enter invalid report parameters	N/A
TC-005	View Report with Old Data	Edge	Report displays warning or indication of outdated data	Navigate to Reports module Select report with old data View report details	N/A
TC-006	Report Export Functionality	Positive	Report is exported successfully in chosen format	Navigate to Reports module Select report Export report to file	N/A
TC-007	Report Filter Functionality	Positive	Report data is filtered correctly according to chosen criteria	Navigate to Reports module Select report Apply filters to report data	N/A
TC-008	Unauthorized User Access	Negative	System prevents access to Reports module or displays error message	Login with unauthorized user credentials Navigate to Reports module	N/A
TC-009	Report Scheduling Functionalit	Positive	Report is generated and sent successfully at scheduled time	Navigate to Reports module Schedule report generation Verify report generation at scheduled time	N/A
TC-010	Report Deletion	Positive	Report is deleted successfully	Navigate to Reports module Select report to delete Confirm report deletion	N/A
TC-011	Report Rename	Positive	Report name is updated successfully	Navigate to Reports module Select report to rename Enter new report name	N/A
TC-012	Report Copy	Positive	Report copy is created successfully	Navigate to Reports module Select report to copy Create copy of report	N/A
TC-013	Report Move to Folder	Positive	Report is moved successfully to chosen folder	Navigate to Reports module Select report to move Move report to different folder	N/A
TC-014	Report Access Rights	Positive	System grants or denies access to Reports module according to user's a	Login with user having different access rights Navigate to Reports module	N/A
TC-015	Report Data Validation	Positive	Report data is accurate and up-to-date	Navigate to Reports module Select report Verify report data accuracy	N/A
TC-016	Report Format Options	Positive	Report is generated in chosen format	Navigate to Reports module Select report Choose report format options	N/A
TC-017	Report Email Notification	Positive	Email notification is sent successfully with report attached	Navigate to Reports module Schedule report generation with email notification Verify email notificatio	N/A
TC-018	Report Data Source	Positive	Report data source is accurate and up-to-date	Navigate to Reports module Select report Verify report data source	N/A
TC-019	Report Customization	Positive	Report is customized successfully according to chosen parameters	Navigate to Reports module Select report Customize report parameters	N/A
TC-020	Report History	Positive	Report generation history is displayed successfully	Navigate to Reports module View report generation history	N/A

Note : Used vibe code to update the code to incorporate Work Type – Task, Bug and Story .

Practice Assignment 2:

Analzye my existing code base and Implement Jira integration

GO STEP BY STEP, Proceed with next step based on my approval

--[Mandatory] Apply changes in Backend and then continue with Frontend

Instruction

[MANDATORY] Implement Jira connectivity email,api key should be configurable
[CRITICAL] Fetch the Projects from Jira. Projects should be autopopulated as dropdown with a search functionality as well.
[CRITICAL] Fetch User stories for the project. User stories should be autopopulated as dropdown with a search functionality as well.
[IMPORTANT] Test Case ID should be appendeded with User Story ID. Example - GEN-19-TC-001
--Ask for approval after each step
-- Refer the Postman Collection

OUTPUT RULES:
[IMPORTANT] Create a Filter on each column Header

- Have an additional column to capture the Pre-requisite and Review comments

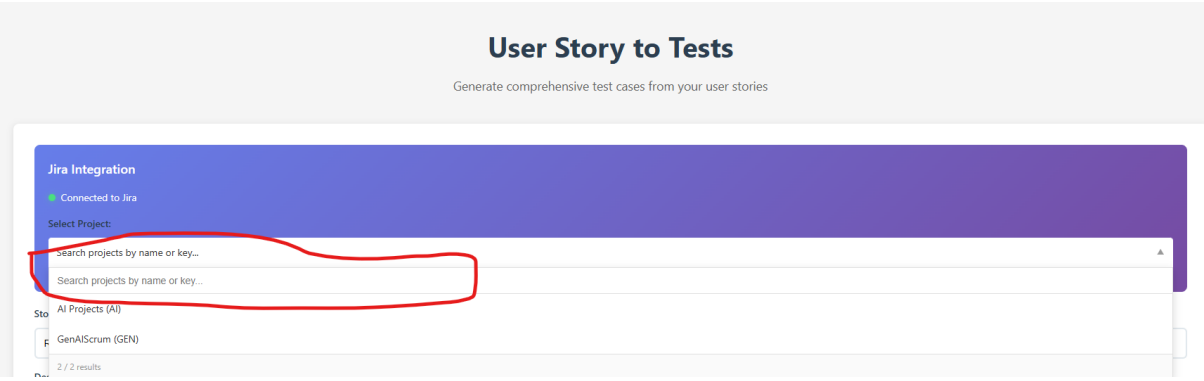
CONTEXT:
Act as an Senior QA Lead.

PERSONA:
Act as a Senior QA Manager reviewing with domain knowledge.

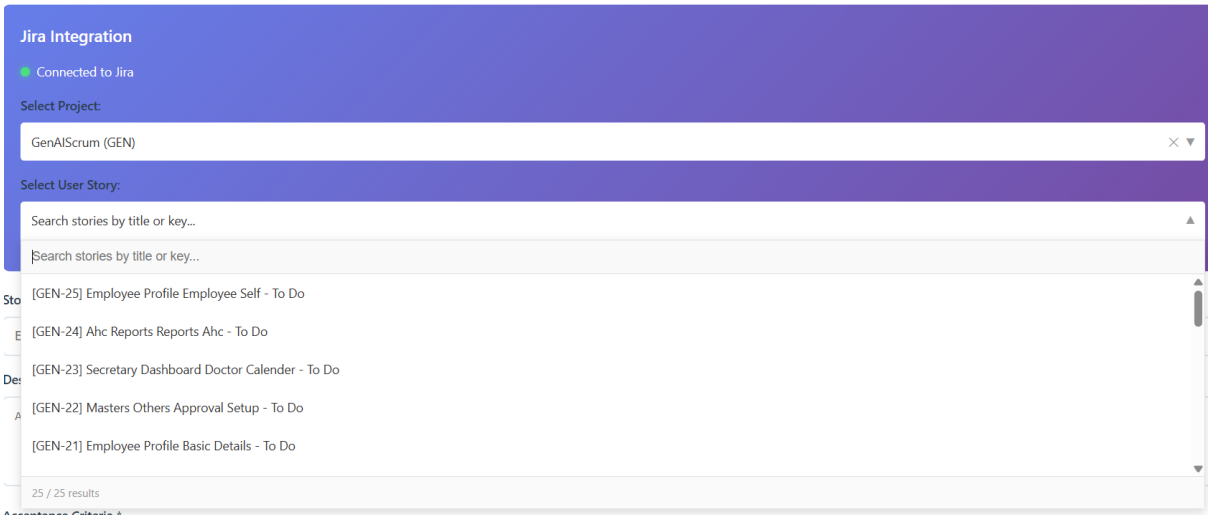
TONE:
Strictly professional

Click to Edit

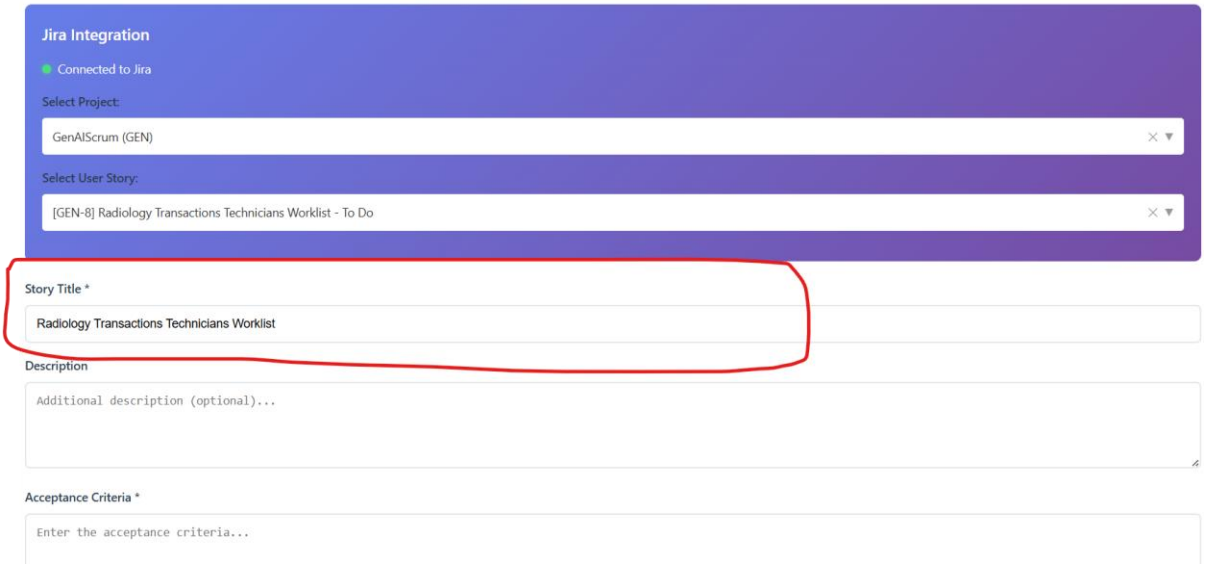
TS jiraClient.ts



- ➔ Search field is introduced in the dropdown.
- ➔ On selecting the Project, “Select User Story” drop down with Search field is displayed



➔ “Story Title” field is displayed with Tile auto populated (based on the selected Story)



➔ Generated Test Case has Filter on **CATEGORY** and **PRIORITY**
